## Working Papers

**Fire Sale Risk and Credit**, Bongaerts, Mazzola and Wagner, 2020.

CEPR Discussion Paper No. DP15798 [*Submitted*]

*Short Abstract:* Using individual application data, we find that lenders anticipate the future risk of a disorderly liquidation in their ex-ante credit supply decisions. These incentives make markets less exposed to fire sales going forward.

*Presentations:* ERIM seminar series, 2020 PhD Finance Forum (AEFIN), 2020 EEA, 7th Emerging Scholars in Banking and Finance Conference.

*Coverage:* World Bank - All About Finance Blog.

**Closed for Business**, Bongaerts, Mazzola and Wagner, CEPR Discussion Paper No. DP14814, 2020 [*Submitted*]

*Short Abstract:* Using a DiD methodology across Italian municipalities, we find that mandated business closures reduce Covid-19 deaths, exhibit rapidly diminishing returns, differ across sectors, and create positive geographical spillovers.

*Coverage:* BlueSky, BizEd AACSB International, Growth Hub, lavoce (in Italian).
